Installationshinweise

1. Schrauben Sie alle Schrauben auf 50%, bevor Sie die Schraube schrauben
2. Stellen Sie die Gegenstände auf eine flache Oberfläche, um sicherzustellen, dass sie stabil bleiben:
3. Verwenden Sie das Werkzeug, um alle Schrauben schrittweise festzuhalten,
4. Wenn die Schraube während der Montage losgelassen wird, lösen Sie alle anderen Schrauben um 50% und setzen Sie den Montageprozess fort.
5. Wenn der Artikel instabil ist, lösen Sie alle Schrauben, richten Sie sie auf eine flache Oberfläche aus und drücken Sie alle Schrauben erneut an
6. Wenn eine oder mehrere Schrauben während der Montage falsch positioniert sind, kann es dazu führen, dass andere Schrauben nicht mit der Lochposition übereinstimmen. Darüber hinaus sind alle Löcher relativ groß gestaltet, um mehr Platz für die Einstellschraube zu lassen.

Installation prompt

1. Before tightening the screws, tighten all screws to 50%
2. Place the item on a flat surface for adjustment to ensure its stability:
3. Use tools to gradually tighten all screws.
4. If screws become loose during assembly, loosen all other screws by 50% before continuing with the assembly process.
5. If the item is unstable, loosen all screws, align them on a flat surface, and then tighten all screws again.
6. If one or more screws are misaligned during assembly, it may cause other screws to not match the hole position. In addition, all holes are designed to be relatively large to leave more space for adjusting screws.

Conseils d'installation

1. Vissez toutes les vis à 50% avant de les serrer
2. Placez l'article sur une surface plane pour ajuster, assurez - vous qu'il reste stable:
3. Utilisez l'outil pour serrer toutes les vis étape par étape,
4. Si les vis sont desserrées pendant l'assemblage, Desserrez toutes les autres vis de 50%, puis continuez le processus d'assemblage.
5. Si l'article n'est pas stable, Desserrez toutes les vis, Alignez - les sur une surface plane, puis serrez à nouveau toutes les vis
6. Si une ou plusieurs vis sont désalignées pendant l'assemblage, il y a un risque que d'autres vis ne s'ajustent pas avec la position du trou. De plus, tous les trous sont conçus pour être relativement grands afin de laisser plus de place pour le réglage des vis.
